

New products Spring 2025

At the end of May 2025, PROLICHT unveiled its latest product innovations: THE FORTIES, SIGN EVO, GLORIOUS SILHOUETTE/QUANTUM SILHOUETTE and JUST BLACK HALOS. This strong portfolio combines design, functionality and technical excellence, delivering pioneering solutions tailored to the growing demands of modern architectural projects.

FORTIES – The multi-tool for architectural lighting

The FORTIES system represents a revolution in lighting technology, offering a comprehensive solution that integrates all essential functions into one. Combining linear and curved profiles, pendant and spotlight inserts, advanced optics and a variety of mounting options, this innovative system provides users with a versatile and efficient lighting solution. The FORTIES range offers maximum design freedom, with options for surface-mounted and pendant installation. Its versatility allows for subtle, atmospheric lighting, as well as sculptural, architectural forms. This versatility makes FORTIES the ideal solution for creative, demanding projects – from retail and hospitality environments to dynamic office installations.

SIGN EVO – The evolution of a design icon

PROLICHT is reimagining one of its best-selling products with the SIGN EVO. The luminaire impresses with its improved efficiency (up to 160 lm/W), optimised installation for faster assembly and state-of-the-art lighting technology for maximum visual comfort. SIGN EVO is available in two versions: a surface-mounted and a pendant. It offers the perfect balance of performance, sustainability and aesthetic appeal. This product is the ideal choice for projects that require a combination of flexibility, efficiency and quality.

GLORIOUS SILHOUETTE & QUANTUM SILHOUETTE – Minimalist elegance with impact

The new ultra-thin GLORIOUS SILHOUETTE and QUANTUM SILHOUETTE pendant luminaires redefine filigree design. The products' exceptional lightness, clear lines and optional acoustic function make them ideal for use in lobbies, retail spaces and catering areas. The combination of minimalist design and powerful lighting effects opens up new possibilities for creating both subtle and expressive lighting scenes.

JUST BLACK HALOS – Perfect circles of light for iconic accents

JUST BLACK HALOS are distinguished by their precisely manufactured shape and purist character. These ring lights are suitable for use as a standalone design element or in geometric compositions. They are able to bring dynamic vitality and visual calm to any room. They create a balanced blend of minimalist elegance and striking expression, making them perfect for modern architectural and interior design concepts.

With the launch of these new products at the end of May 2025, PROLICHT is making a strong statement: light is more than just function – it is design, atmosphere and inspiration.
