DE | SNOOKER ist mehr als nur eine Pendelleuchte. Mit GRAVITY LIFT (in Kombination mit G-TRACK sowie G-BOARD) lassen sich die kugelförmigen Leuchten in Höhe und Position einfach und flexibel verstellen. Die variablen Arrangements (MODELLING, SERVING) können immer wieder neu zu neuen räumlichen Skulpturen geformt werden. SNOOKER reagiert so optimal auf wechselnde Beleuchtungsanforderungen.

EN | SNOOKER is not just a suspended luminaire on its own: with GRAVITY LIFT (both with G-TRACK or G-BOARD) the height and position of the spherical luminaires can be adjusted easily and flexibly. The variable arrangements (MODELLING, SERVING) create new spatial structures, time and time again. SNOOKER consequently responds wonderfully to changing lighting requirements.
