

„SUSTAINABILITY MAKES THE DIFFERENCE“

SUSTAINABILITY STRATEGY 2030 - PROLICHT GMBH

Under the motto *"Sustainability makes the difference"*, the management group has committed itself in writing in its sustainability strategy paper to the topic of sustainability based on the "4 PROLICHT sustainability dimensions".

Sustainable products, the sensitive treatment of nature, cooperation at eye level with customers, partners, suppliers and employees and the awareness of social responsibility are not only lived by the management and our employees but are also reflected in contracts with our partners and suppliers.

Sustainability has become a competitive factor. That's why we try not only to meet the demands of the market, but also to help shape sustainability at all its levels, in and around the company.

Our partners, customers, suppliers and stakeholders must be enthusiastic about our commitment to sustainability. This is both our strategy and our goal.

Figure 1: 17 Sustainable Development Goals (UN)

With the Sustainability Strategy Paper, the Executive Board and senior management have therefore committed to aligning PROLICHT's sustainability strategy with the 17 Sustainable Development Goals of the United Nations.

The "17 Sustainable Development Goals" (SDGs¹), pursue the global plan of promoting sustainable peace and prosperity and protecting our planet. We also want to commit to this plan with our strategy, the goals and measures.
