

„SUSTAINABILITY MAKES THE DIFFERENCE“

Under the motto “Sustainability makes the difference”, the management group has in its Sustainability Strategy Paper committed itself in writing to the topic of sustainability based on the “4 PROLICHT Sustainability Dimensions”.

Sustainable products, the sensitive handling of nature, cooperation on an equal footing with customers, partners, suppliers and employees and the awareness of social responsibility are not only lived today by management and our employees, but is also reflected in contracts with our partners and suppliers.

Sustainability has become a competitive factor. That is why we try not only to meet the demands of the market, but also to help shape sustainability at all levels, in and around the company.

Our partners, customers, suppliers and stakeholders must be enthusiastic about our commitment to sustainability. This is both a strategy and a goal.

(UN Sustainable Development Goals-> <https://unric.org/de/17ziele/>)

Management and senior management have therefore agreed with the Sustainability Strategy Paper to base the sustainability strategy of PROLICHT on the 17 Sustainable Development Goals of the United Nations.

The “17 Sustainable Development Goals” (SDGs) follow the global plan to promote sustainable peace and prosperity and protect our planet. We also want to commit ourselves to this plan with our strategy, objectives and measures.
