INVADER COMPACT ADJUSTABLE | COLOR 03 CRYSTAL WHITE

INVADER FAMILY

One look – boundless possibilities:

With the INVADER spotlight – PROLICHT once again demonstrates the great flexibility of its range. INVADER is characterised by the ease with which it can be configured and tailored to any individual situation – its technical sophistication and its visual identity. Whether you're looking for a WALLWASH or a PENDANT for pleasant restaurant lighting – something to set a dramatic scene in a retail-store or a harmonious lighting solution for a comfortable home – INVADER is a bespoke solution for every demand.

INVADER SURFACE

The surface-mounted version of our INVADER is characterized by its high-quality housing in a compact size: Ø 75 x 125 mm. The driver of the luminaires is despite the small size integrated into the housing and can be configured as DALI or an ON/OFF version. Even Trough-Wiring is possible.

The delicate spotlight INVADER SURFACE is ideal for use as ceiling in residential or hospitality lighting. With the choice of a coordinated beam angle a wide range of lighting moods can be created. Almost endless color combinations give designers extraordinary creative freedom.

HILTI OFFICE PRAG, CZECH REPUBLIC | ARCHITECT: S.H.S ARCHITEKT | PHOTO: S.H.S ARCHITEKT

INVADER ROUND SUSPENDED

As a pendant luminaire INVADER HANGOVER impresses with the same range of color design options as the other INVADER spotlights. In addition, the power supply cable for the suspended version comes in different colors.

PROLICHT offers a wide range of colors in order to provide the creative freedom needed to tailor any luminaire to the respective overall concept or even set targeted accents.

INVADER ROUND SUSPENDED: COLOR 03 CRYSTAL WHITE | CONE: COLOR 24 GOLDEN HEART | TEXTILE CABLE BLACK | CANOPY COLOR 03 CRYSTAL WHITE

INVADER SUSPENDED

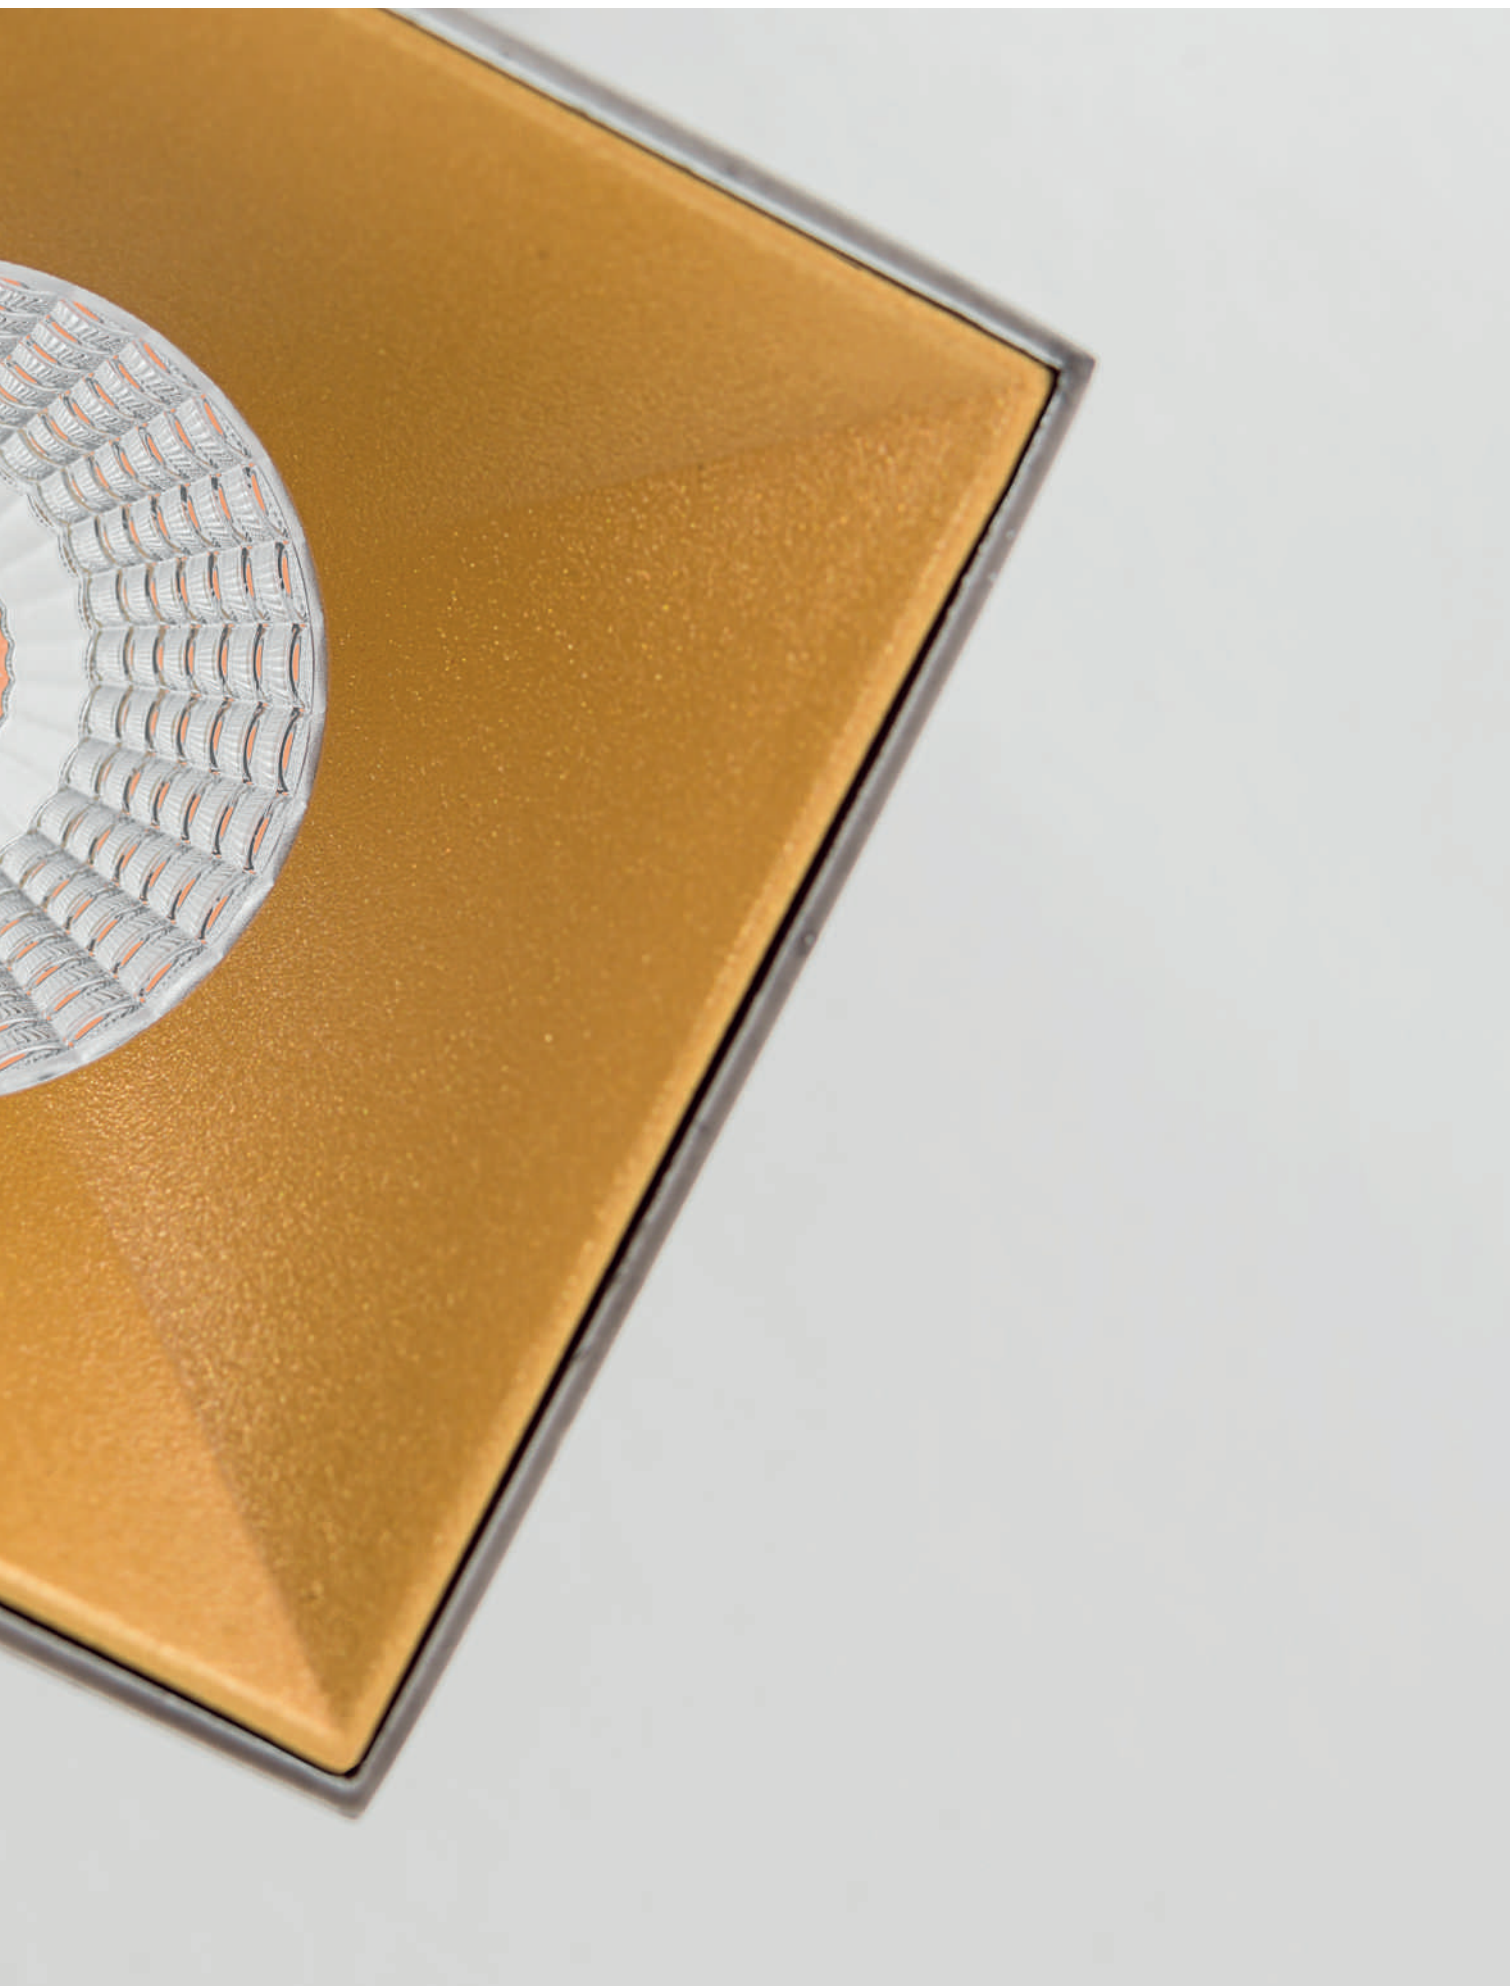

Colors add finishing touches to rooms and offer opportunities to shape the atmosphere. Warm tones create a cozy, communicative environment, whereas cool shades feel sleek, clean, and pure. Colors can be used to set accents, strengthen contrasts, or create a harmonious whole.

INVADER can be configured and tailored by selecting the color of the outside and the cone, the LED, the beam angle and even the color of the power feed cable.

INVADER SQUARE SURFACE | COLOR 25 GUN METAL | CONE: COLOR 24 GOLDEN HEART

CHOOSE YOUR COLOR

The blanking cone is illuminated in any color only by the scattered light from the reflector and provides architectural accents without distorting the light color. To change the color concept, the cone can be replaced after installation. Whether recessed or surface- mounted spotlights, wall lights or pendant luminaires - with the INVADER product family, complete objects can be equipped in a harmonized overall design.
